

The EMDR Institute of Israel

The EMDR Institute, Inc.

EMDR Training in English **taught by Gary Quinn, M.D.**

EMDR therapy is recognized worldwide as an effective form of trauma treatment.

EMDR is a comprehensive, integrative psychotherapy that addresses the experiential contributors of a wide range of pathologies. It attends to the past experiences that have set the groundwork for pathology, the current situations that trigger dysfunctional emotions, beliefs and sensations, and the positive experience needed to enhance future adaptive behaviors and mental health.

EMDR has a broad base of published case reports and controlled research that supports it as an empirically validated treatment of trauma, and it has been found to be effective in Anxiety Disorders, Depressive Disorders, and many other disorders.

This training course is open only to mental health professionals.

Dr. Gary Quinn is a well-known psychiatrist who was personally trained and certified by Dr. Francine Shapiro, the developer of EMDR. He is a Trainer of Trainers for the EMDR Institute, Inc.
